## CONSUL URGES AMBASSADOR TO SECURE ORDER

### Asserts Withdrawal of Americans Would 'Avoid Difficulties'

BULLETIN

MARFA, Texas, Aug. 20—Captain Leonard Matlack of the Eighth cavalry has captured two Mexicans, believed to have been implicated in the capture of Aviators Peterson and Davis. This information was brought to the border by an American cavalry sergeant and a guard of enlisted men who returned to the Rio Grande tonight

WASHINGTON, Aug. 20.—Mexican Ambassador Bonillas has been urged by the Mexican consul at Presidio, Texas, to obtain from the war department an order for withdrawal of the American forces in Mexico. The consul's telegram, made public at the embassy tonight, said that since Meixcan federal troops were in pursuit of the bandits which held two American aviators for ransom withdrawal of the American troops would "avoid difficulties."

No request for withdrawal, however, has been presented to the department so far as could be learned tonight

General Barragan, chief of the Mexican presidential staff, today notified the embassy that the special police force of Tampico and the petroleum zone Monday captured the "group of bandits" which recently attacked American sailors from the gunboat Cheyenne.

**Troops Camp in Mountains.**

Marfa, Texas, Aug. 20.—After thirty-six hours of campaigning in Mexico below the Big Bend border, following "hit trails" of the Mexican bandits who held Lieutenants Peterson and Davis for ransom, American cavalry troops went into camp in the mountains tonight for the second time during the punitive expedition after Jesus Renteria's band.

Since the troops crossed the Rio Grande Monday morning they have been riding constantly during daylight hours in pursuit of thebandits. The only contact with the bandits. The only contact with the killing of one of three Mexicans who fired on an American airplane yesterday. According to the aviators the fight lasted twenty minutes. Reports from the field are meagre. Because of the broken country the troopers have been forced to scatter and follow such trails as they can pick up. The country is too rough for airplanes to effect a landing below the border without danger. A cryptic message "still following trail" brought to the border by airplane today was the only definite word from the expedition.

**Expect Gen. Dickman.**

Major General J. T. Dickman, commander of the southern department, is expected to reach here tomorrow morning on an inspection of posts and camps along the border

While his visit here is not believed to be inspired by the Mexican situation, the commander undoubtedly will go over the entire situation developing from the capture and ransom of the American aviators with Colonel Langhorne, district commander It is not known whether General Dickman will go to the border while here .

Reports from Presidio, Texas, told of movements of Mexican federal cavalry under General Antonio Pruneda today. General Pruneda left Ojinaga last night, marching toward Cuchillo Parada, forty miles up the Conchos river.

**Obtain Feed from Natives.**

The American troops have progressed so far into the interior of Mexico it was learned tonight it has been found impracticable to get forage and heavy materials over the trails. Today the cavalry obtained feed for the horses from natives.

Long wagon trains are plying between the quartermaster depots here and the field base on the Rio Grande carrying rations and supplies for the troops.

The soldiers are spending their second night under Mexican skies under more favorable conditions than last night as it has not rained since yesterday.

## Senate Sustains House in Repeal of Daylight Act

WASHINGTON, Aug. 20.—Repeal of the daylight saving act was accomplished today, the senate voting to sustain the house in passing the repeal measure over resident Wilson's veto. The vote was 57 to 19.

The repeal of the law which now takes its place, among the very few which have been passed over a presidential veto, becomes effective after the clocks are turned back to normal in October. It will go down in legislative history as one of the very few measures which have twice been vetoed by a president and became a law after all by the vote of more than two-thirds in both houses of congress.

## DISAPPROVAL NOT OFFICIALLY RECORDED

ATLANTA, Ga., Aug. 20.—Altho both the senate and house rejected by large majorities proposed ratification of the federal woman suffrage amendment the Georgia legislature is not officially on record of having disapproved the amendment, the secretary of the senate and the clerk of the house announced today. Separate resolutions were passed by the senate and house and neither acted on the other's resolution before adjournment.

## PERSHING PLANS TO SAIL SEPT. 1

Washington, Aug. 20.—General Pershing cabled Secretary Baker today that he planned to sail from France on the transport Mount Vernon September 1.

## FIVE PERSONS HURT WHEN TRAIN HITS AUTOMOBILE

### Wabash Passenger Train Hits Car at Grade Crossing West of Bluffs Wednesday Night—Two at Local Hospital

Five persons were injured, two of them seriously, when an automobile in which they were riding was struck by east bound passenger train No. 50 at Naples crossing on the Keokuk division one and one-half miles west of Bluffs at 7:30 o'clock this evening.

The seriously injured are:

Carl Killion, Blairsville, Ark., bad injuries about the head and chest crushed.

Mrs. Alice Tash, Naples, right shoulder dislocated and other injuries.

W. L. Dowe, Bluffs, Miss Helen Tash and Mrs. Ella Watters, Naples, received minor cuts and bruises.

W. L. Lowe, Bluffs, Miss Helen the Bluffs telephone exchange, was driving the car and was bringing the others from Naples to Bluffs. When they reached the Naples crossing Mr. Lowe drove on the track directly in front of the onrushing train.

The engine struck the car squarely and the occupants were thrown in every direction. The car which was a Ford was completely demolished.

Charles Shaw, a lineman, was in the vicinity and saw the accident. Mr. Shaw was recently in an accident himself and is in a highly nervous condition. He was completely unnerved by the awful sight, all of the injured being covered with blood.

The train was stopped and the injured taken aboard and rushed to Bluffs where they were given first aid by Dr. Evans. Miss Tash, Mrs. Waters and Lowe were found to have only minor injuries.

**Two at Our Savior's Hospital.**

Killion and Mrs. Tash were brought here accompanied by Dr. Evans who had wired ahead for the ambulance. They were taken to Our Savior's hospital where they were attended by Dr. J. W. Hairgrove.

Killion has severe cuts on the face and a deep wound in the back of the head and chest badly crushed. Mrs. Tash has her right shoulder dislocated and severe bruises. It is feared that both may be internally injured.

The train was in charge of Conductor Fred Schmidt with A. E. Scott engineer.

## Would Stop All Immigration For Two Years

WASHINGTON, Aug. 20.—A bill to stop all immigration for two years and a bill to deport all aliens who withdrew their first papers in order to escape military service during the war was introduced today by Chairman Johnson of the house immigration committee.

After the end of the two year suspension period, aliens would be entitled to admission to the United States only under a passport or on their written declaration to become an American citizen. They would be required to register annually until citizenship was conferred. Fraudulent entry would be punishable by five years imprisonment and $1,000 fine, to be followed by deportation.

Exceptions that would be permitted by the bill are:

Alien residents of the United States might send for their parents, unmarried or widowed daughters, or son under 16 years old, unless these relatives had been alien enemies, for whom special authorization for admissoin would be required.

Skilled labor also might be imported and foreign officials, tourists, students and professional men might come into the country temporarily under passports.

## CHALLENGE TRADE BODY STATEMENTS

WASHINGTON, Aug. 20.—Independent packers appearing before the senate agriculture committee today challenged most of the statements of the federal comission on which proposals for stringent regulation of the big five packers are based.

The independent representatives insisted they were meeting and furnishing lively competition in the purchase of livestock and in the sale of meats to the retailer, and expressed the conclusion that the law of supply and demand would serve sufficiently to protect the consumer. Their view was supplemented by that of a retail butcher, a vegetable cannery representative and the head of a milk condensing business to object to licensing provisions of the Kenyon bills which they felt would apply to their business if not changed..

## FAVORS LEAVING BODIES IN FRANCE

Washington, Aug. 20.—General Pershing in a cablegram to the war department, has expressed the opinion that the bodies of American soldiers who died abroad should be left near where they fell.

"I believe that, could these soldiers speak for themselves they would wish to be left undisturbed where, with their comrades, they fought the last fight," General Pershing said. "Those who rest in England gave their lives in the samecause and their remains represent the same salvation as those who lie on the battlefields.

"The graves of our soldiers, constitute, if they are allowed to remain, a perpetual reminder to our allies of the liberty and ideals upon which the greatness of America rests."

## REPORT NUMBER KILLED IN WRECK

HAGERSTOWN, Md., Aug. 21.—A number of passengers were reported killed and many injured in the wrecking of fast Train No. 2, of the Norfolk & Western Railway near Boyce, Va., 45 miles from her early this (Thursday) morning. Five cars wer reported to have left the track including two Pullmans enroute from southern points to New York. All wer reported badly wrecked.

**Say None Killed.**

ROANOKE, Va., Aug. 21.—Reports to local officials of the Norfolk & Western railway said two sleepers and one coach left the track in thew reck of train No. 2 near Boyce, early this (Thursday) morning and that none of the passengers were reported killed altho a number were injured.

## PRESENT BILL TO MEET PEACE TERMS

BERLIN, Tuesday, Aug. 19.—By The A. P.—A bill providing ways and means for carrying out the peace terms was presented before the national assembly at Weimar yesterday with the approval of the imperial council. The purpose of it is to establish control of all sorts of activities in commerce, finance and industries bearing on the means of meeting the responsibilities laid upon Germany by the conditions of peace.

Washington, Aug. 20—Investigation of the news print paper industry to determine whether it is engaged in illegal practices and whether prices are excessive was authorized in a resolution introduced today by Senator Reed, Democrat, Missouri, and adopted by the senate.

## HOPE TO AVERT STEEL STRIKE BY CONFERENCE

### Ninety-Eight Per Cent of Workers Favor Walk-out

YOUNGSTOWN, O., Aug. 20.—Whether a nation-wide strike of iron and steel workers will be called depends upon a conference which the union leaders hope to obtain within the next ten days with representatives of the United States Steel Corporation. If the corporation officials refuse to meet the union representatives, a conference commitee of six representing the twenty four unions involved, headed by Samuel Gompers, president of the American Federation of Labor is empowered to call a strike forthwith. This sums up the conference of representatives of the unions affiliated with the American Federation of Labor which today canvassed the vote of unions on the question of calling a strike.

**Ninety-Eight Percent Favor Strike**

W. Z. Foster, member of the conference commitee and spokeman for the unions, stated tonight that ninety eight percent of the workers voting had voted in favor of a walkout. In the absence of Mr. Gompers who is returning from Europe, Mr. Foster intimated that other members of the conference committee might proceed to arrange for the meetings with representatives of the steel corporation.

E. H. Gary, chairman of the board of the United States Steel Corporation, probably will be first approached on the subject of a conference to take up the twelve basic demands of the unions Mr. Foster intimated.

The conference committee, Mr. Foster stated is to hold another meeting within a few days when the method of approaching the steel corporation will be determined.

Whether the conference committee will call a strike at the end of ten days in case a meeting with the steel corporation has been arranged, but has failed to agree on the demands made by the unions Mr. Foster said he could not state.

**Twelve Basic Demands.**

Twelve basic demands will be made upon the manufactures, Mr. Foster said, in addition to minor demands to be formulated by the 24 international unions which have members working in the steel industry. These basic demands are:

1—Right of collective bargaining.

2—Reinstatement of all men discharged for union activities with pay for time lost.

3—The eight hour day.

4—One days rest in seven.

5—Abolition of 24 hour shifts.

6—Increases in wages sufficient to guarantee American standards of living.

7—Standard scales of wages for all crafts and classifications of workers.

8—Double rates of pay for all overtime work and for work on Sundays and holidays.

9—Checkoff system of collecting union dues and assessments

10—Principles of seniority to apply in maintaining, reducing and increasing working forces.

11—Abolition of company unions.

12—Abolition of physicial examination for employment

These propositions are said to be general in character and are subject to development when the organization prepares its trade demands.

## REJECTED SUITOR KILLS NURSE

DENVER, Aug. 20.—Miss Bessie Marrold of Callicoon, New York, 23 years old, formerly an army nurse in Camp Mills, was shot and instantly killed today by Isador Victor, 25 years old, whose offers of marriage the girl had rejected.

The shooting occurred in the court yard of the Jewish hospital for consumptives in Jefferson county, near Denver. Victor was a patient at the hospital. Miss Marrold was a nurse.

## STRIKERS IGNORE ORDER

East St. Louis, Ill., Aug. 20.—Striking street car men tonight ignored an order from W. D. Mahon, international president car men's union to return to work pending settlement of difficulties. The strike has paralyzed traffic here and in sixteen nearby towns since Friday.

## MUSICIANS STRIKE

Chicago, Aug. 20.—Musicians and stage mechanics employed at six down-town theaters went on a strike this afternoon in sympathy with the actors. The walk-out occurred shortly before the hour scheduled for the matinee performance.

## 6 Killed When Freight Plows Into Passenger

TRAVERSE CITY, Mich., Aug. 20.—Six persons, all members of train crews were almost instantly killed and sixteen passengers injured when Pere Marquette freight train No. 355, northbound, plowed head-on into southbound Traverse City-Grand Rapids passenger train No. 6 at Grawn, Mich., today.

Engineer Fletcher Gage of Grand Rapids was pinned under the wreckage and died instantly. Engineer Earl Eighmy of Grand Rapids and Fireman G. L. Shenneman of Big Rapids, both on the freight train, were killed instantly. Mail Clerk Frank Cushman of Petosky was crushed in his car and died before help could reach him. John Davis of Grand Rapids, brakeman on the freight and who was riding on the engine, was thrown clear of the wreckage, but died almost instantly.

Fourteen passengers on Train No. 6 sustained minor injuries from flying glass and the impact of the collision.

Conductor Fred Nuebecker of Grand Rapids, in charge of the freight train sustained a broken arm. Earl Beeman, fireman on No. 6 was badly scalded but will recover.

While railway officials are investigating the cause of the accident, no definite statement was forthcoming.

Beman, who it was at first believed would recover from his injuries died a short time after removal from the wreck.

Among the injured passengers are:

L. B. Heeneskerk of Washington, D. C., a member of the Netherlands legation with a cut over the left eye and otherwise injured.

Amanda Hansen, 7210 Chaplain avenue, Chicago, was severely bruised about the body.

Late this evening Trainmaster James Kehoe, of the Pere Marquette made the following statement regarding the wreck:

"The cause is very apparent. It was simply that five men, comprising the crew of the freight, forgot about the regular passenger train. The freight was running extra and genral orders are that it should keep clear of all regular trains. The crew forgot this regular train and ran past the station and siding at Beitner without orders.'

## THOUSANDS OF SOLDIERS SEE FAIR

SPRINGFIELD, Ill., Aug. 20.—Thousands of American soldiers, sailors and marines were admitted to the state fair today without charge in celebration of Victory day.

The gates were thrown open to veterans of the Civil and Spanish-American wars, as well as to participants in the conflict just closing, and all joined in patriotic exercises presided over by Governor Lowden.

Addresses were made by Col. John V. Clinnin, 130th infantry, 33rd division; Clarendin E. Adams, Omaha, Neb., commander in chief of the G. A. R.; and William Jones, New York, commander in chief of the United Spanish American War Veterans.

## REPORTERS MAY GO BACK TO WORK

OMAHA, Nebr., Aug. 20.—Striking reporters and copy readers of the Omaha Bee voted this afternoon that strikers might go back to work under any terms they could make after three men including the leader, had left their ranks. Six of the twelve who remained said they would not ask for their places. The men voted to keep up the union which they organized last night. The Bee announced that some of the strikers will be taken back.

## WOULD PAY KAISER 170,000,000 MARKS

BERLIN, Tuesday, Aug. 19.—(By the A. P.)—A bill has been submitted to the Prussian cabinet which provides that 170,000,000 marks shall be given to former Emperor William as total settlement for the civil list he lost thru "forced abdication," according to a Weimar dispatch in the Freiheit. The cabinet has not reached a decision, it is said because the scheme is opposed by Herr von Braun, minister of agriculture.

## START MOVE FOR COMPROMISE IN LEAGUE FIGHT

### Democrats Propose Interpretative Reservations

WASHINGTON, Aug. 20.—The first open move for a compromise in the league of nations fight came from administration quarters today in a proposal that the senate adopt interpretative reservations but that they be kept apart from the actual ratification of the treaty. The overture met with no immediate success on the Republican side, senators of the Republican reservation group declaring they could not recede from their position that to be effective the reservations must go into the ratification. Senator Pittman, a Democratic member of the foreign relations committee presented the compromise proposal in the form of a resolution in effect the four reservations agreed on by seven Republican senators and declaring them to constitute the senate's understanding of disputed points in the covenant.

**Consider Proviso Necessary**

In the Republican draft, it is provided that the reservations be made a part of the treaty by the instrument of ratification, a proviso which Senator McNary and others of the group of seven Republican said they considered necessary if enough Republican votes are to be gained to secure ratification of the treaty.

To overcome this objection Sen. Pitmann proposed that the provision be adopted at once and submitted to the other powers. A debate developed during which Senator Borah and others took exception with President Wilson's distinction between moral and legal obligations under the covenant as expressed in yesterday's white house conference.

Also Senator Pittman said he had not submitted his resolution for the president's approval he asserted it carried into effect Mr. Wilson's views on the subject of reservations. He indicated his first belief that administration would go no further toward a compromise.

Leaders of the McNary group nevertheless insisted they had information that in the end their plan would have Democratic support.

**Attacks Shantung Proviso**

An attack on the Shantung provision of the treaty was made in the senate by Senator McCormick who asserted that by accepting the provision the United States would become a party to one of the most outrageaus exhibitions of hypocrisy and violence in the world's history. The Shantung provision was under consideration before the foreign relations committee which was told by Dr. J. C. Ferguson, adviser to the Chinese president, that China regarded American acceptance as a deviation from the traditional policy of friendship to the Chinese government and people.

In his argument that reservations should not be incorporated in the ratification, Senator Pittman declared Germany was awaiting an opportunity to attach "hundreds of reservations" and to re-open the subject would submit the United States to a needless risk. His resolution went over with action.

Article ten of the covenant by which the members agree to preserve one another's territorial integrity against external aggression, Mr. Pittman asserted, had not legal force because it "doesn't carry the essentials of a contract."

## END CAR MEN'S STRIKE

## Reactionaries Meet Defeat at Miners Meeting

SPRINGFIELD, Ill., Aug. 20.—Reactionaries in the convention here today of insurgent miners met defeat when they attempted to turn out present members of sub-district policy committees.

After extended debate all of the present policy committee members were retained, and will be charged with responsibility of representing the purposes of the convention in their respective sub-districts.

Lawrence Lamb, chairman of the convention said the attempts to repudiate the present organization had come from emissaries of the Socialist Labor party. The squabbie over the policy committee elections followed the presentation by the convention policy committee of printed charges against state miner's officials which were ordered sent to the regular miners' convention at Peoria in November.

Officials were said to have been guilty of malfeasance in office, violation of their obligations and misappropriation of union funds.

State officials said the charges were baseless and were the result of agitation by radicals against constituted authority. They declared they would welcome an investigation.

A number of resolutions were adopted during the day which covered a wide range of subjects. The convention adjourned to meet at 9 a. m., tomorrow. It is planned to complete the work in hand in the course of the day.

## ELEVATOR COMPANY RESISTS STATE LAW

FARGO, N. D., Aug. 20.—An action involving the power of the state of North Dakota to enforce the state grain act while the grain business is under the control of the U. S. food administration was filed in the U. S. district court here late yesterday.

The Emden Elevator Co., resisting the state law and declaring its refusal to take out a license, contends that when the federal government took over the grain business supervision that the state lost all power to dictate how grain shall be handled. State officials charged with enforcing the state grain grading law are made defendants.

## PREPARE FOR OFFENSIVE

Paris, Aug. 20.—Havas.—Rumanian military authorities are preparing for an offensive east of the Dniester river for the purpose of joining forces with General Denikine's army in southern Russia according to the Echo de Paris.

## ASK TROOPS TO COPE WITH CAR STRIKE TROUBLE

### Officials Fear Serious Disorders at Hammond, Ind.

HAMMOND, Ind., Aug. 20.—City and county authorities tonight called upon Governor Goodrich at Indianapolis for troops to aid in coping with the situation due to the strike of employes of the Standard Steel Car company who Friday stormed the street in the vicinity of the car company in defiance of efforts of police and deputy sheriffs to maintain order.

The action of the authorities followed rejection tonight by the strikers of a compromise offer of the car company officials.

Disorders more serious than those of Frida yare feared by the officials and leaders of the strikers who have tried to conciliate the men and declare that the situation is beyond their control

The strikers are declared to have notified the police that they will permit no one to enter the car works tomorrow.

**Mobilize Ten Companies.**

Indianapolis, Ind., Aug. 20.—Ten companies of state troops tonight were ordered mobilized for transportation to Hammond, Ind., where efforts to end a strike of employes of the Standard Steel Car company are said to have failed today. The call for the state troops was received tonight by Governor James P. Goodrich from Sheriff Burns of Lake county and Mayor Dan Brown of Hammond, who stated they believed the situation would be beyond their control by tomorrow morning.

## NAMES COMMISSION TO PROBE CHICAGO RIOTS

CHICAGO, Aug. 20.—Frank O. Lowden, today appointed a commission of 13 men to inquire into the causes of the recent race riots in Chicago and devise means of bringing about a better understanding between the two races with a view of preventing a recurrence of this class of disturbance. Edgar A. Bancroft is chairman.

## PERSHING VISITS VENICE

Rome, Aug. 20.—(Havas.)—General Pershing spent part of yesterday in Venice. In the evening he left Venice for a tour of the battle fields and the liberated region.

## FREIGHT STRIKES SPEEDSTER; ONE DEAD AND FIVE INJURED

### Accident Occurs Last Night at 10 O'clock Near Tallula—Box Car in Front of Engine Obscures Headlight

One man was killed and five other people badly hurt, one seriously, when a railroad motor speedster collided with Local Alton Freight No. 113 in the railroad yards at Tallula last night about 10 o'clock.

**The Dead.**

John Reed, aged 51, of Tallula, killed instantly.

**The Injured.**

Wiley Potter, aged 38, of Tallula, both legs cut off just below the knee, also sustained serious wound on right side of head, condition extremely critical.

Alma Reed, aged 15, of Tallula, daughter of John Reed, left arm broken just below shoulder, back hurt, internal injuries.

Mrs. Ernest Austin, aged 22, of Tallula, cut about the head.

Miss Lorena Reed, aged 13, of Tallula, daughter of John Reed, badly bruised.

Mrs. Wiley Potter, aged 38, of Tallula, wife of Wiley Potter, badly bruised.

**Occurred in Yards.**

The accident occurred in the Tallula yards just south of that place [illegible] freight train [illegible] some switching and at the time of the accident was pushing a box car ahead of the engine. This shut off the headlight from the view of the oncoming speedster and as the motor car carried no lights the freight engineer was unable to see their approach.

Both Potter and Reed are employed by the Chicago & Alton Railroad company on the section at Tallula. Potter had spent the day at the state fair in Springfield and the others in the party met him at Ashland with the motor car. Reed drove the speedster to Ashland with the ladies in order to bring Potter home.

The force of the impact with the engine threw the light motor truck a distance of four or five car rails. Reed was instantly killed and was found on the back end of a box car. One of the brakemen found him sitting upright but dead. Potter was pulled out from under the cars by the trainmen of the freight.

The freight was in charge of Conductor T. S. Roe and Engineer J. Johnson.

The injured were brought to this city at midnight on a special in charge of Conductor Roe.

Dr. J. P. Ellis of Tallula accompanied the special train here with the injured.

**Is Badly Hurt.**

Wiley Potter is the only one of those injured who is in a critical state, and it is feared that he will not recover. Beside the loss of both feet he sustains a scalp wound which is deep enough to reveal the skull.

The greatest wonder of the whole tragedy is that any of those on the speedster escaped alive. As stated above the impact threw the car four or five rail lengths and this gives some idea of the terrific force of the blow.

Little Miss Lorena Reed the 13 year old daughter of the man who was killed, is the least injured of any. While she is badly bruised, yet she was able to walk when the train reached Jacksonville last night.

Just as some people anticipated the interest in the government's bargain sale of groceries seems to be waning in some of the larger cities. The difficulty is not with the qualities or the prices of the goods but with the quantities. The small buyer on close figuring doesn't see the advantage of buying goods in large cans because he fears the waste resulting will more than offset the original saving.

Now that the long deferred trouble with Mexico seems near at hand, the war department authorities admit that the air service of the U. S. is not sufficiently organized to properly cope with the situation. If the U. S. doesn't have an air service of sufficient strength to properly support its army in operations against Mexico, what would happen if the country were called upon at an early date to go against a well organized, well armed foe?

They have all sorts of parades and demonstrations in Chicago but one of the most impressive was that of Monday, when more than 5,000 people marched thru the streets to give emphasis to their earnestness in seeking the return of "their soldiers" from Siberia.

Probably President Wilson would gain more supporters for his League of Nations plan if he could bring about the speedy return of these men than he will gain thru a long speech-making tour.

Chicago insurance agencies have announced that tht surtax of ten per cent on policies is to be abolished and that the pre-war charges for premiums will be resumed. This in a great city like Chicago means a great annual saving to property owners.

It is very likely that the people of Jacksonville will later on hear the glad news that premium rates have been lowered here in Jacksonville for the adequate protection which will come from Jacksonville's increased water supply will justify such a rate decrease.

Dr. Pennington, acting for the agricultural department, has just ended an extensive investigation and declares that because of inefficient methods in original handling $200,000,000 is lost yearly to the producers of poultry. These figures take on new interest when considered in connection with a recent statement here of Prof. Lippincott that a hen on the basis of food consumption produces more than four times the amount of nutritive food solids that a steer produces from a like amount of food consumed.

The investigation report suggests further that wasteful methods as well as some other factors have had a large part in bringing about the present high living costs.

Lloyd George will not be dismayed by the storm of protests that his recent speech made. He would expect too much if he looked for as great popularity in the after the war period as he had during the war, when the mind of the people was so largely unified with the one definite purpose of winning the contest. Certainly, no matter how much disagreement there might be with some of the premier's statements, there can be no getting away from the fact that there must be more economy and greater production if England with any speed gets back to anything like pre-war conditions. The lesons which the premier sought to impress are just as applicable to the U. S., even tho the financial condition of this country is much stronger than the present condition of England.

Some people are fearful and point to history for the proof that the high price for farming land is eventually going to mean a peasant class in this country, for they argue that the man without means now has very little chance for buying land in the long settled farming communities. Thus it is to come about that there will be more renters instead of fewer. If this proves to be the case it will not be the best thing which can happen to land, for the ideal condition is when each farmer owns his own land and lives on it.

But there is this good feature in higher priced land, that better farming methods will be the order that wastes will be cut down and every acre brought to a high state of cultivation. As the rise in land values brings about intensified farming, by so much at least the present day methods of agriculture will be bettered.

**THE COMMON PEOPLE**

The common people round me troop, the Toms and Dicks and Harrys; one builds himself a nice new coop, one dies, another marries. The banker's clad in gaudy rags, his bank has marble portals; the hostler curries down his nags, and both are common mortals. The tinsmith makes our motor cars, the blacksmith works his bellows, the poet soars among the stars, and all are common fellows. We all are equal at our birth, one kid's just like another; and when we tumble off the earth, what man's above another? I walk along the churchyard aisles, and, pensive, muse and ponder; the granite's reared in costly piles above that grave o'er yonder; and there a poor man sleeps alone, a friendless wight and daffy, above his head a simple stone, devoid of epitaphy. And both are sleeping just the same, the poor man and the Croesus; on earth they played the common game, and now they're gone to pieces. In youth we all are gay and vain, in middle age we're sober; and all of us have ache and pain when life has reached October. The king, who has God given right to be a nation's master, must leave his downy couch at night to hunt a porus plaster. It makes me tired to hear the talk of strata and of classes; we're just the plain old human flock, we're just the common masses.

## OLD JACKSONVILLE
### JOSEPH COOLEY
**By Ensley Moore**
**(Member Illinois State Historical Society)**

Any one in Jacksonville who did not know Joseph Cooley can hardly be called an old settler.

Gray, the English poet, wrote of "The short and simple annals of the poor,"

And the story of Joseph Cooley's life was written in those un-numbered pages.

**Born in Old Kentucky**

Lincoln once wrote his biography, which had wide circulation and reading, in about nine newspaper lines. Cooley's needed even less space, it would seem. But as everybody in Central Illinois then knew of Lincoln, so everybody in Jacksonville could have known Cooley. The only special early note of Mr. Cooley's life that this writer knows of was that he was born in Marion county, Kentucky; and that he came here in 1825.

**Lived Here Long**

He lived for long years of the last part of his life in an old-timey looking yellow house, on the west side of Prospect street, one door from corner W. State street. He was a married man, having one daughter, who married John C. Stubbs, who was porter for years at the drug store of M. P. & A. E. Ayers, at the corner of the Square where the Ayers National Bank is now. The Stubbs' had one son. They went, years ago, to Havana, Illinois, as recalled by the writer.

**A True Pioneer**

Mr. Cooley had the characternstics of the people who came early to our prairie land to make settlement for wiser and more cultivated people to follow. He had the kind-heartedness of those people; he had their ways; he had their unswerving American independence of thought and feeling He called almost everybody by their first names, or the abbreviations of them. His heart always went back to his employer and friend, Governor Duncan, with loving respect and companionship, but the distinguished citizen was always "Joe Duncan" to "Joe Cooley," as the latter was known. He had been the governor's coachman, in the days when few of our ladies rode in their carriages, and he always felt as an attache of the Duncan family. To their credit be it said, they responded to the old man's kindly love and thought.

In the Daily Journal of December 3, 1885, the following notice appeared:

**"Joseph Cooley"**

Joseph Cooley is dead; and he, so long familiar to our citizens, will walk no more in his accustomed places. His face, cheerful even amidst suffering, and the voice tuneful with interest shall greet our ears no more.

Few men, living today, have seen the great changes in Jacksonville, and, probably, personally known so many of our more prominent citizens, as Mr. Cooley. He was ever faithful to the memory of his friend, the first governor that Jacksonville gave to Illinois —Joseph Duncan; and yet the War Governor we afterwards sent to Springfield—Richard Yates — was only a boy when the subject of this sketch came to this region.

Mr. Cooley's place in life was humble, but those who passed his gate will remember the pleasant words with which he spoke, and he could place flowers of memory on graves heaped before his was covered.

There were few, no doubt, in his neighborhood unacquainted with the old man; and yet it would be a hard heart that would be unsoftened at mention of his departure. Joseph Cooley is dead; and thus, one by one, our old settlers quietly drop away, leaving their long accustomed places.

Ensley Moore."

A few days after this little notice was written, the writer met Mrs. Julia Duncan Kirby, and she said:

"I read your notice of Joe Cooley and was glad to see it."

Mr. Cooley must have been about eighty years of age.

## BROCKHOUSE FAMILY HELD ANNUAL PICNIC

**One Hundred and Seventy Members Present Wednesday—Main Address Delivered by Rev. W. E. Spoonts.**

One hundred and seventy members of the Brockhouse family were present at the annual family gathering in the Brockhouse grove north of Chapin Wednesday.

Threatening weather kept many from attending but those who braved weather conditions were well repaid for their trouble as a splendid program was carried out.

A program consisting of readings, vocal and instrumental numbers was given. The main address of the day was delivered by Rev. Walter E. Spoonts of this city who told of his overseas experiences with the Y. M. C. A. Mr. Spoonts was given close attention and his address proved so interesting that it is hoped he will be able to make an address at the next picnic.

Two baseball games were played during the day between Chapin and Concord. Chapin won both games, the first by a score of 7 to 3 and the second by a score of 6 to 5.

The first Brockhouse family came to America in 1838 and settled in this county. In 1843 five others followed. The family is one of the best known in the county and its members are all citizens of the highest class.

Thefirst picnic of the family was given in 1907. Since that year the affair has been an annual one except one year when rain prevented the gathering and last year when it was not held because of the war.

There were five Brockhouse descendents in service during the war. Three have returned home. One, Russell Brockhouse, son of Louis Brockhouse of Chapin, is still overseas. John Vallery, whose mother is a Brockhouse, died in service.

One of the features of the day was the dinner which was a typical Brockhouse dinner and greatly enjoyed. The Jacksonville Candy company of this city furnished the ice cream for the occasion.

During the day officers for the ensuing year were elected. They are:

President —Albert Bartelheim, Concord.

Vice president—August Brockhouse, Chapin.

Secretary—Mrs. Hester Neinhiser, Concord.

Treasurer — Herbert Schumacher, Chapin.

'N FALL FOOTWEAR—

**Edwin Smart Shoe Co.**

**A Little Talk About Fabric**

WHY DOES tailored-to-measure clothing, men's or women's, wear better, retain its shape longer, give its wearer a dressier appearance, and afford more universal satisfaction?

THE ANSWER is simple—it's all in the fabric. That is, so much of a garment's true worth is in the fabric that no amount of high grade tailoring would make a success of poor fabric.

IN FACT, no tailor who expects to remain in business can afford to make up cheap fabrics, and the true tailor who loves his art will not work on such materials.

NOW, more than ever, will it pay to purchase tailored-to-order clothing — it is true economy because such garments stand any sort of wear and retain their newness, and if soiled can be cleaned without damage or loss of appearance.

WE HAVE in our fall stock of choice all wool fabrics for suits for both men and women. Our Mr. Green, in charge of the Ladies' Department, and Mr. Renner, in charge of the Men's Department, will be glad to show you the new patterns and to discuss the question with you.

## VISITOR TELLS OF TEXAS OIL FIELDS

**E. F. Renner States Southern State Offers Stupendous Possibilities.**

"Tales of wonderful discoveries of bygone years in the far west and northwest, in minerals, timber, farm and city prosperity all dwarf into insignificance in the light of present day activities throughout the southwest, particularly in those sections where oil has been discovered and where indications point strongly to oil and gas formations," said E. F. Renner yesterday while talking about some of his recent travels.

Mr. Renner is a brother of Albert Renner, president of the Jacksonville Tailoring company, and formarly spent a great deal of his time in and around Jacksonville. In recent years he has represented the Universal Display Service company, traveling over a large portion of the southwest and west. Mrs. Renner travels with him and, in fact, they frequently split their territory between them where it is large and sparsely settled, covering it in Ford cars.

Some months ago Mr. Renner found it necessary again to travel Texas and was so profoundly struck with the advance made in all lines, the rapid growth of towns and the wonderful possibilities for everyone, that he and Mrs. Renner decided to remain and make a complete study of the old fields. Their experience has resulted in making numerous investments in leases in various parts of the state. Asked if he would sell, or had anything good to sell Mr. Renner replied, "No, I am not up here on a selling trip, but merely to visit uy brother and family and to take a little rest. If I got my price I would sell a small part of some one or more of my leases, but not all of any one of them. I consider them too good and if there is anything to be made, I want it. I really don't believe that there is a place in Texas today where a man can invest in land and lose. In the first place oil is being found everywhere, from east to west and north to south of that great state. If it should not be found on your land its rapid rise in value will make you glad you bought. No, I have no land to sell either."

**Tells of Fabulous Fortunes.**

Speaking of instances where men had made fortunes Mr. Renner told of one man who was land poor; he couldn't pay his taxes. He offered to deed a friend forty acres if he would pay the amount. It was done, and withing a few months the man holding the forty realized over $100,000. Mr. Renner stated he could go on and mention hundreds of similar cases and cases where fabulous fortunes had been made in a very short time.

Continuing, Mr. Renner said: "I am not strong for stock companies for there is where much of the money is lost, but believe in buying leases where indications are good and in going after what may be found beneath the soil. Some seventeen years ago oil was found in southern and southeastern Texas. Now activities have etxended all over the state, producing wells being brought in around San Antonio, Ft. Worth and other of the older and larger cities. Oil is being found north of El Paso, but the wonder pools are in and near such towns as Ranger, Burk-Burnett, Cisco, Eastland, Desdemona, Caddo, Graham, Breckenridge, etc., towns that a year or two ago were hardly known to exist. As a fair example of the sudden and rapid growths of Texas towns I may cite Ranger, in Eastland county. Two years ago it boasted five hundred population and nothing was known of oil. Today it is well above forty thousand. I was there the night of the fire and our room was in the house first to go. Such is the tremendous activity of those people that they soon had temporary shelters up and have now erected fine and substantial buildings. Almost over night, it would seem, these towns spring into existence."

**Pools Dome Shaped.**

In speaking of the formation of the country as indicating oil, Mr. Renner said that all of that particular section extending across Texas, up thru New Mexico and into the new fields in Wyoming, seems to be what is known as the "Pennsylvania," certain oil producing. He states the pools are dome shaped, the top layer gas, the next oil while underneath is salt water. This accounting, he said, for frequently striking "gassers"—the drill had been put down too near the center. On the other hand where salt water has been struck first it had been because the drill was sunk near the outer edge of the dome. Wells vary in depth from one to two hundred feet down toward the seacoast, to four and five thousand feet in the northern portions.

"Horace Greeley said to go west," said Mr. Renner. "Times have changed and I say, go south. And particularly do I say that to the young man who has his life all before him and perhaps has but little or no capital on which to start. I am sorry that I didn't find out these opportunities sooner, but I have made a little money and Mrs. Renner and I are going right back there and if we keep our health we are going to make some more. The possibilities in Texas are simply stupendous. If we tell it too strong people think we are careless of the truth. What has been done down there, what is being done in the way of development, and the magnificent future possibilities can be appreciated and comprehended only by such a visit as we have made."

Mr. Renner asked if there was being anything done here in way of prospecting for oil. He was told that a few years ago there was some little flurry and that there were oil and gas indications in this county and also coal, and he replied that in coming in on the train he remarked to Mrs. Renner that in numerous spots the formations pointed strongly to oil, and that he believed before he left he would make a thorough investigation of this field. "Oil is where you find it," said Renner, "and I've learned not to be astonished at anything that happens."

## ARREST HEAD OF SUGAR COMPANY

CHICAGO, Aug. 20.—One arrest was made today and a conference of state prosecutors from nineteen Illinois cities and counties with District Attorney Clyne was held relative to co-operation in prosecuting hoarders and profiteers in the government's campaign against the high cost of living.

George W. Sheehan, president of the Central Sugar Company of which several officials were put under charges of profiteering in Pittsburgh recently, was arrested today on a similar charge. He was released in bonds of $5,000. It is charged that Sheehan's firm bought a quantity of sugar for $9.56 a hundred pounds and sold it to another company for $12.75. District Attorney Clyne refused to discuss plans being evolved in his meeting with county prosecutors.

Sales of government foodstuffs continued today in department stores and thru postal stations. More than 2,000,000 army blankets are on sale at the army quartermaster's depot.

### BRING ACTION TO DESTROY STORED FISH

Trenton, N. J., Aug. 20.—The Barnegat Power & Cold Storage Co., and the Bay State Fish Co. of Boston have been summoned before the state department of health on Friday to show cause why 57,000 pounds of fish which has been in storage for over a year, should not be destroyed as unfit to eat. The fish would begin to decompose as soon as exposed to the outer air, officials said.

### SETTLE COAL STRIKE.

London, Aug. 20.—(By The Associated Press.)—The strike of the Yorkshire coal miners, which has been in progress for many weeks has been settled.

## PALMER SAYS PRICE WAR BEARING FRUIT

WASHINGTON, Aug. 20.—Attorney General Palmer said today there was evidence that the government campaign to reduce the cost of living was bearing fruit. A vegetable packer of Maryland wrote Mr. Palmer that prices in many lines were beginning to ease off as it became evident the department of justice meant business in annoucning that the criminal prosecutions against hoarders and profiteers would be instituted wherever the laws were violated.

"We want to make things clear, however," the attorney general said, "that nothing we can do can change the immutable economic laws on which prices depend. If we can increase the supply by greater production and less demand by greater saving on the part of the people, then the cost of living soon wil come down. We can help that along by forcing hoarders to put on the market food held out for an advance in prices."

The attorney general drew distinctions between hoarded food and stored food. The former is held out of the market in greater quantities than required for the owners business for the purpose of forcing up the market. The later is surplus being husbanded from the harvest to the lean season.

It was made clear that all food proved to be hoarded would be put on the market. United States marshals probably will administer its disposition.

The department of justice announced that eleven cases had been brought under the food control act for the seizure of food in Columbus, Ga., St. Louis, Detroit, Chattanooga, and Kansas City.

Mr. Palmer appearing before the house agriculture committee in connection with its consideration of legislation to extend the powers of the food control act, opposed the proposal to give the president authority to fix wholesale and retail prices of necessities. From the attorney general's statements the conclusion was drawn by committee membehs that under the amended food control act the department of justice primariily would strike at the retailers.

Following Mr. Palmer's appearance the committeeheld an executive session at which it was understood an agreement was reached on the general nature of theamendment. The proposed section permitting the president to fix price it was understood would be eliminated as well as exemptions which would have been allowed certain retailers. Exemption would be continued for farmers.

Etxension of th e law's powers over other necessities and imposition of penalty of two years imprisonment and $5,000 fine will report out the amendment tomorrow.

Canned sweet potatoes, pumpkin, squash, syrup and assorted jams were added today to the list of foodstuffs to be sold by the war department thru parcel post.

## FIRE SITUATION MOST SERIOUS

MISSOULA, Mont., Aug. 20.—The general fire situation in forestry district No. 1, Montana and northern Idaho, never in the history of the west has been as serious as it is today according to forestry officials.

In addition to new fires and old blazes being fanned by high winds fires started by incendiaries were reported.

In the clear water forest a forest service telephone wire was cut in seven places and the ends wrapped around trees. Forest officials said thirty fire fighters retreating from a blaze had left the forest along the route followed by the telephone line just before communication was interrupted.

As a result it has been impossible to obtain information from the Clearwater forest or get calls for men which might have been sent out.

## RETURNED SOLDIER CONFESSES MURDER

DUBUQUE, Iowa, Aug. 20.—James Townsend, 20, returned soldier, confessed this afternoon that he had murdered his stepfather, F. Trees, Friday, and had thrown his body in the Mississippi river, according to police. The body was found Monday.

Both legs and the right arm were bound, and a 100 pound rock was found tied around the neck.

Mrs. Trees, in a statement to the authorities, declared her husband was insane and that Townsend killed him when, she said, he made an attempt to assault her two daughters.

## OFFER REWARD FOR ARREST OF HAVERLY

CHICAGO, Aug. 20.—A reward of $1,000 for the apprehension of Paul J. B. Harvey, grand keeper of records and seal of the Knights of Pythias grand lodge of Illinois, missing since August 1, was announced today by Smith L. Von Fossen, of Beardstown, Ill., grand chancellor of the lodge, who stated that a shortage of more than $40,000 had been found in the lodge funds. Issuance of a warrant for arrest was authorized by a legal advisory committee appointed by the chancellor and composed of John J. Reeve, Jacksonville, Ill.; J. B. Vaughn, Carlinville, Ill.; P. R. Longnecker and Attorney G. M. Walker, both of Chicago.

### REPORT SEVERE FIGHTING

## INDICATE JAPANESE PROVOKED TROUPLE

PEKING, Sunday, Aug. 17.—(By the A. P.)—The official report of the Chinese government regarding the clash between Chinese and Japanese soldiers on July 19 at Chang Chun, Manchuria, it is said in government circles indicatesthat the Japanese provoked the trouble. There is no definite proof who fired the firstshot but the Chinese claim that the fact that Japanese soldiers with fixed bayonets and loaded rifles forced an entry in the Chinese military encampment shows that they were the aggressors.

The Chinese report says 18 Japanese were killed and 17 wounded, 12 Chinese killed, 14 wounded. One hundred Chinese soldiers are missing but it is believed that many of them fled and fear to return.

## MAY CHARGE HUN OFFICER WITH MURDER

LILLE, France, Tuesday, Aug. 19.—(French wireless service.) Evidence adduced before the French military court inquiring into crimes committed by the Germans during the occupation indicates that a charge of murder may bebrought against von Heinrich, a former military governor of Lille.

Madame Jacques and Madame Martens, widows of men shot by the Germans testified today that after sentence of death had been passed on their husbands, von Heinrich authorized their lawyers to appeal to the German emperor. While the appeal was being made von Heinrich, it was declared ordered the men executed and they were shot 24 hours later.

## RAIL MANAGERS PRESENT PLAN

WASHINGTON, Aug. 20.—Railway management, represented by the association of railway executives, today presented to congress its plan for "placing the railroad business upon a stable basis." Appearing before the house interstate commerce commission Thomas DeWitt Cuyler, chairman of the association, recommended on behalf of his organization return of the railroads to private operation with legislative guarantees of adequate revenues to the roads and efficient service to the public. Both Mr. Cuyler and Alfred P. Thom, counsel of the association attacked the Plumb plan for tripartite control of the roads under government ownership as an impracticable system which the American people, when fully informed would surely reject.

Mr. Thom said the provision of the Plumb plan for retirement of private capital would deprive the railroads of one-third of the lines book value.

### TO PRESENT JUDGE'S PROPOSITION TO MEN

Chicago, Aug. 20.—A committee representing the striking employes of the Aurora, Elgin and Chicago railroad told Federal Judge Evans that his propisition made yesterday that the men return to work on a basis of five cents an hour increase would be put before the 600 striking workers at a mass meeting at Wheaton this afternoon.

## SPECULATE AS TO HOW MONEY CAN BE PAID

CANDELERIA, Texas, Aug. 20.—Mexican newspapers received today announcing General Dickman's trip to Marfa and possibly to Candeleria in connection with payment of the remainder of the $15,000 ransom for Aviators Peterson and Davis, created discussion here as to how and to whom the remainder of theransom could be paid. After securing the release of Lieutenant Peterson Monday Captain Matlack escaped with Lieutenant Davis without paying the remainder of the ransom amounting to $6,500.

According to newspaper reports, the United States wants the total amount of the ransom delivered to the bandit Renteria. As far as known no associates or relatives of Renteria live near the border.

## SAY LIVING EXPENSES HAVE SHOWN DECREASE

CHICAGO, Aug. 20.—Attorneys for the meat packers in the packing house employes' wage hearing today told Judge Samuel Alschuler, federal mediator, that living expenses had shown a decrease since February. They cited a federal department of labor report which they said indicated some decreases in living costs.

The packers' counsel invited the judge to make a tour of the stock yards district and see for himself how the workers there lived.

The counsel for the workers urged the judge to inspect the homes of the heads of Armour & Co., Swift & Co., Morris & Co., and see how they lived.

### REFUSES TO GRANT ORDER

New York, Aug. 20.—Holding that war emergency still exists. Federal Judge Augustus N. Hand today refused to grant a temporary order sought by Scatena, Lawson & Perelli, owners of vineyards in California with a place of business in this city, to restrain federal authorities here from enforcing provisions of the war time prohibition act.

## PROVIDES LOCAL SELF GOVERNMENT FOR KORE

WASHINGTON, Aug. 20.—Local self-government for Korea and reforms looking toward home rule are announced in imperial rescript issued yesterday in Tokio and received today at the Japanese embassy.

The military government has been displaced and succeeded by a civil one. The military gendarmerie is to be replaced by a civilian police force under civilian control. A system of village and town municipal government based on popular suffrage also is to be undertaken.

Possibly most important of all from the Korean point of view the rescript by the emperor of Japan provides that Koreans shall have the same privileges and legal rights as Japanese.

Baron Saito, former minister of state and well known of Japanese statesmen becomes governor general.

# TRANSACT LARGE AMOUNT OF BUSINESS

**Delegates to Federation of Women's Clubs Busy at Second Days' Sessions.**

The second day's sessions of the federation of women's clubs showed an amount of business transacted that was truly remarkable. The morning session was given up largely to routine business, appointment of committees and similar affairs. One thing is most certain; the colored ladies have shown wonderful executive ability and variety of talent which are truly commendable.

The afternoon session opened with "Blest be the Tie That Binds" after which memorial services were conducted by Mrs. Ella Stanford of Peoria. Fourteen members died during the year.

The credentials committee reported a total voting strength of delegates, officers and heads of departments of 94.

Mrs. Roach of Chicago reported 500 copies of the minutes printed at a cost of $60.00.

Mrs. Desdemona Sublett of Chicago reported for the committee on religion. She said our boys have had a vision of spiritual things of which they are only dimly conscious and it is our duty to try to crystalize this into a pulsating reality.

**Makes Forestry Report**

Mrs. Mary Depew of Evanston for the committee on forestry told of Cook county's forest preserves, 12,675 acres of picturesque scenery. The economical value of these is great. Deer Park Grove has 2,000 acres, Desplanes river valle, 2,000 Palos Hill 2,000, Salt creek valley 648, North Branch Chicago river, 148, Beverly Hills 126.

Mrs. L. J. Crawley, chairman of the social workers committee, submitted a grand report of which a few items are mentioned. The financial part showed gratifying receipts and good management. Visits were made to Elgin State hospital, Benedict house for working girls, Milwaukee; Booker T. Washington Social and Industrial Center; Industrial Club Home for Girls, and other places in Chicago.

For the colored children of the stockyards district 323 garments were made by social workers and assistance they secured. Miss Bertha L. Hensley, social worker in Chicago told of her efforts in visiting destitute families, getting hold of homeless children and caring for them, visiting homes of questionable looking children and much similar work.

**Social Work in Bloomington**

The social work in Bloomington showed much accomplished for the colored race. A branch of the National Association for the Advancement of Colored People has been organized, a day nursery opened and much accomplished. Places for recreation are badly needed and other wants are pressing which will have early consideration.

Mrs. C. R. Green of Champaign gave a practical demonstration of the cooking of fresh fish and gave various recipes for canning fresh foods accomplishing much saving. All were excellent.

Mrs. Gertrude Davis, superintendent of the Phyllis Wheatly Home for Working Girls in Chicago, told of the work there where girls are received and afforded all manner of useful surroundings and assistance.

The report of the child welfare juvenile court in Chicago brought out many interesting facts. One impassioned speaker said that the police of the great city were rotten. If a group of boys was caught shooting craps the colored ones would be arrested and the others let go free.

Many poor girls are cruelly and shamefully arrested without cause on the merest suspicion. In spite of it all real progress is being made and the future has grounds for hope.

There is a highly creditable exhibition of arts and crafts work. Jacksonville ladies contribute crib pillow top, Mrs. Clara Dans; crotcheted center piece, Mrs. Aaron Swar; library runner, crotcheted, Mrs. Mazie Mallory; library runner chotcheted, Mrs. Nannie Easley; crotcheted bedspread, Mrs. Hester Brown; same two yokes; knitted sweater, Mrs. Clotella Grey; also slippers and three crotcheted yokes; patchwork quilt, Miss Clemintine Harold.

Crotcheted yoke, Mrs. Martha Dixon, Champaign.

Pink night gown, Mrs. Fred Rush; crotcheted yoke, Mrs. Alice Covington, Bloomington.

Center piece, Mrs. Irene Thomas; crotcheted yoke, Mrs. George Thomas, Normal.

Embroidered pillow top, Mrs. Arena Wallace, Monmouth.

Crotcheted lace edgings, Mrs. Pearl Fanlox, Maywood.

Crotcheted night gown yoke, baby cap, edging for pillow cases, three towel ends, Mrs. Mabel Simpson, Chicago.

**Evening Session.**

A packed house was present, chairs being carried to accommodate the audience. The program already printed in the Journal was carried out with the exception of the report of the educational committee which was read by Mrs. W. M. Martin of Cairo; Mrs. Reeves of Chicago being absent.

# BURGLARS ENTER BRADISH RESIDENCE

**Were Surprised by Mr. Bradish Who Called Police—Thieves Make Escape.**

Walter C. Bradish, 1130 West College avenue surprised burglars in the act of burglarizing his residence about 11 o'clock Wednesday night. They were frightened away before they secured anything.

When he entered his home at that hour he found that burglars had broken a window glass and unfastening the catch on the window had gained entrance. Mr. Bradish's family is away and evidently the thieves are some of our home talent and were aware of this fact.

Mr. Bradish had reason to believe that he had the burglars corralled in the second story of the house and called the police. Capt. Elliott, Sergeant Trahy, Patrolman Stewart and Theodore Arisman of the fire department went to the Bradish residence but when they searched the house no trace of the burglars was found.

Capt. Elliott is of the opinion that the burglars heard Mr. Bradish when he entered the house and made their get-away. The lattice work of the beck porch is very close and none of the officers could get their hands thru it. The burglars, or one of them, was able to get his hand thru the lattice and unfasten the catch.

The hole in the window which was broken also was very small. This led the officers to the opinion that the thieves are young boys. Capt. Elliott has a well grounded opinion that he knows the guilty parties.

It is too bad that the Springfield management does not arrange to have the state fair during July as the rains which the fair always brings would be more acceptable during that dry month.

**The Damm Farm**

The Cedar Rapids Gazette tells of a family named Damm that came to Mahaska county, Iowa, four years ago. It is a large family. There are Father and Mother Damm and 12 Damm children. They were conspicuous on their arrival because of their name and the strangeness of their tongue and manners, and their poverty. They had less than $80 to start on.

But they started. They rented a farm and went to work.

The other day they bought that farm. It is a big one, about 400 acres. It is a great deal better in every way than when they first rented it. They paid $60,000 for it.

So the rented farm, we take it, is not necessarily the hopeless, tragic thing it has been represented. Perhaps a great deal less depends on the rented farm than on the renting farmers. These Hollanders seem to have set native landlords a Damm good example.

**E. L. MENDONSA FACES FALSE PRETENSE CHARGE**

E. L. Mendonsa, formerly a resident of this city, faces a charge of obtaining money under false pretense and has been bound over to await the action of the grand jury at Carlinville. He is required to furnish bond of $1,000. According to an article which appeared in the State Journal, Mendonsa, who is seventy-one years of age, three years ago secured $1,000 from the Farmers & Marchants' bank of Carlinville. It is alleged that Mendonsa claimed that he had large realty holdings but that these claims were false and that he owned practically nothing.

The article referred to stated that Mendonsa claimed that the debt was outlawed after the passage of three years. However, it was stated that he was out of the state temporarily and that therefore the debt was not outlawed.

### RECORD PRICE FOR LAND PAID IN IOWA

While there are some people hereabout who believe that the price of land has reached the danger point here and that stagnation or recession is next in order, there is nothing to indicate such conditions when the prices in other localities are considered. Not so very long ago a tract of 48 acres in Monona county, Iowa, was sold at a price of $37,500. This land is adjoining the little town of Ute and in fact a part of it was within the corporate limits.

This meant a price of approximately $780 per acre and notwithstanding this fact a resident of the county in writing about the sale said, "Monona county has the cheapest land in the state today, considering what it will produce and is really worth."

## PERSHING TO MARRY?

**Rumor Names Bride-to-Be as Los Angeles Girl.**

The national capital is interested again over the rumor that General Pershing is soon to be married. The general is expected home on the Leviathan, and with him, perhaps, according to word being whispered around Washington, his bride. The report of his being engaged, which was circulated and denied shortly after he went to France, has bobbed up again and is being circulated with renewed energy.

It is the same lady—the lady fro mCalifornia, Miss Anita Patton, daughter of George Patton of Los Angeles. Her brother, Major Joseph Patton, was with the A. E. F. thru the war, a member of the general staff at headquarters. He returned to Los Angeles some weeks ago. Meanwhile, those who say they know seem perfectly sure that either an engagement or wedding will be announced immediately after the general's return.

There seems to be a division as to which, but an entire agreement that the denials that any engagement existed were merely because at the time no one knew how long thewar might last, and while it lasted the marriage was out of the question.

Miss Frances Bowman of Jerseyville has been employed to take charge temporarily of the children's work at the public library. Miss Bowman will also be in charge of the library work in connection with the public schools. She is a graduate of the Pittsburg Library School and has been children's librarian at the Central Children's Library of St. Louis for the past twelve years. For the past year Miss Bowman has been engaged in war library work at Camp Meade, Md., and during recent weeks has been making a vacation visit with friends in the east. Thru her years of experience as children's librarian have given Miss Bowman a thoro knowledge of the needs and tastes of children in regard to books, and her services at the local library will doubtless prove very valuable.

### HOME FROM AUTO TRIP TO KANSAS

S. T. Erixon and D. E. Kennedy have returned from an eight days' automobile trip to Kansas. They were accompanied by Rex and William Sinclair as far as Garfield, Kans. Mr. Erixon went west to inspect his farm located near Dodge City and Mr. Kennedy to visit his farm near Grainfield. The whole journey of more than 1500 miles was made without a puncture or blow out.

Mr. Erixon said yesterday that the party saw acres and acres of wheat which had not yet been shocked and that threshing work will probably be going on until very late in the fall, because the force is inadequate to cope with the conditions. There is a great acreage of wheat but the yield is not coming up near to expectations as was the case in this vicinity.

## TALKED ABOUT HARD ROAD CONSTRUCTION

**Delegation Visited Department of Public Works Office to Boost for Route Thirty-six**

A delegation went to Springfield Wednesday to attend a conference with Director Bennett of the department of public works to urge the early construction of a hard road on route 36 by way of this city and Pittsfield to Quincy. W. E. Williams of Pittsfield, as attorney for the three counties interested, Morgan, Scott and Pike, was the spokesman. In the interview with Mr. Bennett, Mr. Williams was accompanied by State Auditor Andrew Russel, Judge Swan of Pittsfield, E. E. Crabtree, W. L. Fay, Henry Frisch, H. L. Caldwell of Jacksonville, Judge McKeene and Charles Woodall of Winchester.

There have been two hearings with reference to this route and the visit of this delegation was merely for the purpose of again impressing upon the commission that the people of Morgan, Scott and Pike counties are thoroly interested in bringing about the early construction of the hard road on route 36, and that they sincerely hope that in planning to reach Quincy from Springfield the route will run via Jacksonville and Winchester rather than by Beardstown and Rushville.

**Will Not Build This Year.**

Mr. Bennett was not able to indicate that anything would be done in construction work on either route this year, as he said that only a comparatively limited mileage will be let this year, as the prices for construction now are almost prohibitive, running about 60 per cent more than the original estimates He made the point that if the department were to follow the policy of pushing all road work that at present costs the available fund thru state bonds and federal aid of $87,000,000 would be exhausted long before anything like the original mileage contemplated had been constructed. This might be all right for those localities in the state favored with the early construction of roadways but would certainly be unfair to the other parts of the state where construction work was delayed.

**No Definite Statement.**

So far as choice having been made as to wether the road from Springfield to Quincy will be routed thru Morgan and Scott counties or thru Cass and Schuyler, Mr. Bennett made no definite statement. In answer to a direct question by Mr. Crabtree he said that there was a possibility of both roads being constructed simultaneously and there was no intention of giving the preference in early construction to the north route. However, in frankness it may be stated that the members of the delegation after the visit knew just as much concerning the plans of the commission as they did before they went to Springfield.

## FRANKLIN FARMER LOSES BARN BY FIRE

**Flames of Unknown Origin Consume Building Belonging to W. C. Calhoun.**

A small barn belonging to W. C. Calhoun of Franklin caught fire in some unknown manner between two and three o'clock Wednesday afternoon and burned down. The building was uninsured and the loss will run between $300 and $400. About one-half ton of straw, an old buggy and some harness were in the barn at the time of the fire and were also destroyed. Mr. Calhoun has a number of barns and buildings on his farm and this barn was about a mile and a half east of his residence.

## Scraps of News

### TOURISTS NUMEROUS.

The number of touring parties passing thru Jacksonville was never greater than at the present time. In fact tourists are such common sights now that license plates from states all over the Union cause little comment. Unless the car is carrying unusual equipment no attention is paid by the man on the streets to the cars which are parked about town nearly all the time from many parts of the country. That much business is derived from the tourists is proven by the report of sales of all kinds of accessories and supplies by dealers and merchants in all lines.

### BUYS 135,000 BU. OF WHEAT

J. E. McCreary, manager of Farmers' elevator at Mason City, says he has bought 135,000 bushels of wheat. Most of this wheat graded No. 2, yellow hard. McCreary does his own grading and buys on his own judgment. He thinks the farmers are better satisfied as they know just what price they will get when they deliver the grain. The oats crop around Mason City was very light.

### NO HAY FEVER YET.

Catchoo! It hasn't been heard yet. Maybe it will be later on.

Is hay fever, the imp of August, passing us up this year, or is he only delayed?

One woman, who has entertained the uninvited guest for thirty-four years, is crossing her fingers and holding her breath lest she will hear the old familiar knock at her door. He usually comes the first of August, she says, but he has failed to appear.

### CATCHES MANY UNAWARES

The rain of yesterday afternoon and evening caught many Jacksonville residents attending the state fair at Springfield unawares. Motorists to the fair yesterday morning state that the dust was terrible all the way over. There were so many cars on the road that the highway was in a constant fog practically the whole 35 miles. Coming back tho the dust had turned to mud, so that the trip was generally conceded a hard one going and coming.

### EXPRESS DEPOT INADEQUATE

J. C. Graebing of Terre Haute, Ind., division superintendent of the American Express Company, was a business visitor in the city yesterday. The present express depot in Jacksonville is inadequate to handle the volume of business done here by the consolidated companies. Mr. Graebing was investigating the possibilities of extending the space at the depot. Another building may be erected or the C., P. & St. L., freight depot purchased for express purposes.

### CARPENTER GANG BUSY

The Alton bridge carpenter gang was busy Tuesday at the East State street crossing placing some new planks and putting gravel between the tracks. They were called to Mason City yesterday, but are expected to return to Jacksonville within a few days as there is a great deal of work still to be done on Alton property in Jacksonville.

## WAVERLY OPERATORS RESUME THEIR DUTIES

**Telephone Company Meets Workers Demands and Strike Is Declared Off—Will Secure 25 Per Cent Wage Increase.**

At seven o'clock Wednesday morning the telephone operators of the Waverly exchange called off their strike and returned to work.

They did not return to work, however, until all of their demands had been met by the company.

A meeting of the stockholders of the phone company met at the offices of the company yesterday morning at 6:30 o'clock and decided to meet the demands of the operators for a 25 per cent increase in wages.

There are seven operators employed at the Waverly exchange.

### CHAUTAUQUA NOTES

**Subscribers' Season Tickets**

The secretary still holds many subscribtions for season tickets. Those who subscribed for tickets last year and who have not secured their tickets from the secretary are urged to call for them at once.

**Friday's Program.**

Do not miss the great program of the opening day, next Friday. Mark Sullivan, editor of Collier's Weekly, who has made the outstanding hit of the year on the eastern chautauquas, will in his witty and humorous manner, tell of his impressions of the peace conference at Versailles. Cy DeVry, for many years in charge of the Lincoln Park, Chicago, Zoo, will tell of his animal friends and illustrate his address with a fine movie showing his animals. The Crawford Adams Company will furnish the music. Elmer Adams and his accompanist and humorous reader have received ovations at the chautauquas and army camps.

**The Big Top Raised.**

The big tent has been raised and most of the small tents are up and ready for occupancy. The Armbruster tent company sent a man here to superintend the raising of the tents. The platform is in place and the lighting and seating is well under way. The Illinois Telephone has been placed in the secretary's tent and the Bell telephone will be connected soon. Everything will be in readiness for the opening day by this afternoon or evening.

## Don't Experiment with Catarrh; It Often Leads to Serious Trouble

**You Will Never Be Cured by Local Treatment with Sprays and Douches**

Catarrh is a condition of the blood and can not be cured by local applications of sprays and douches; this has been proven by the thousands who have vainly resorted to this method of treatment.

Catarrh should not be neglected or experimented with. The wrong treatment is valuable time lost, during which the disease is getting a firmer hold upon its victim, and making it more difficult for even the proper treatment to accomplish results.

Though catarrh makes its first appearance in the nostrils, throat and air passages, the disease becomes more and more aggravated and finally reaches down into the lungs, and everyone recognizes the alarming condition that results when the lungs are affected. Thus catarrh may be the forerunner of that most dreaded and hopeless of all diseases, consumption.

No local treatment affords permanent relief. Experience has taught that S. S. S. is the one remedy which attacks the disease at its source, the blood, and produces satisfactory results in even the worst cases. Catarrh sufferers are urged to give S. S. S. a thorough trial. It is sold by all druggists. You are invited to write to the Medical Department for expert advice as to how to treat your own case. Address Swift Specific Co., 436 Swift Laboratory, Atlanta, Ga.

## Our Repair Policy

Recharging, repairs, testing—these are part of our service. We have the training and equipment to do this work *well*, at the least price consistent with *good work*.

Cheap work isn't really cheap at any price, and would only lose us customers.

*But we regard this service as a part of our obligation* to make Willard Batteries last as long as possible at least expense.

Another of our obligations is to distribute for Willard a battery that will last longer and doesn't need so many repairs—the Willard Battery with Threaded Rubber Insulation.

It gives longer life with fewer troubles just as a cord tire does.

Drop in and let us tell you its remarkable performance record after over four years of service.

## SIMPLE HOME REMEDY ADVISED FOR ROSE AND HAY FEVER

**Anyone Can Make a Pint for Trifling Sum and Used in Time May Prevent Annual Attack.**

"No mattr how severe your yearly attack be,
No matter how distressing or humiliating—
Its intensity can be reduced to a harmless, mildness,"

says a Kentucky druggist who believes from what he has seen that this simple home made remedy is a most important discovery.

He has seen the most severe and apparently unconquerable cases reduced to what might be called a mild cold in twenty-four hours.

In many cases where the patient started treatment a week or ten days before the expected attack the unwelcome yearly visitor failed to appear with anything like its usual intensity.

People who want to try this new treatment can make a pint in a few minutes.

Pour one ounce of Mentholized Arcine into a pint bottle then fill the bottle with water that has been boiled. Gargle daily as directed and snuff or spray the nostrils twice daily.

That's all there is to the treatment which so many sufferers have found to be a true friend.

Mentholized Arcine in one ounce vials is dispensed by all the better pharmacies.

## FASCINATING TEETH

**How Every Woman Can Quickly Charm Her Friends With Lovely Teeth, Clean, White and Brilliant**

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use a tooth paste so effective and perfect that astonishing results usually come in a week's time.

And the cost is so little. Just go to any drug or department store, and get a large tube of SENRECO TOOTH PASTE for 35 cents.

Not only will it make your teeth clean and white, but it will at once remove any filmy coating, help to check the ravages of Pyorrhea and banish acidity in the mouth.

It is used by thousands of dentists and its sale has been remarkable. When you visit your dentist, which you should do at least twice a year, ask him about SENRECO. It's a most delightful and refreshing tooth paste.

## RALPH TAYLOR IS HERE FOR FURLOUGH VISIT

**Son of Spencer Taylor Is in City for Furlough Visit from Camp Dodge—Saw Months of Service in France and Germany.**

Ralph Taylor, son of Spencer Taylor, is in the city for a furlough visit and is now at the home of D. L. McCarthy on North Main street. Young Taylor has been in the army service for the past seventeen months, and fifteen months of that period has been in France as a member of the 77th field artillery. It was on April 6, 1918, that he enlisted for army service. He was in training with the 19th cavalry at Camp Green, South Carolina, but upon landing in France was transferred to the field artillery unit.

Young Taylor had part in four important engagements, the Aisne-Marne offensive, St. Mihiel, Toulons and Argonne-Meuse. Following the signing of the armistice he was with the army of occupation in Germany, stationed at Cologne. The men were given the opportunity to be discharged and to reenlist and this is what Taylor did. He is now a member of the 4th division (regulars) and will be located at Camp Dodge. The Jacksonville young man will return to Camp Dodge in the course of a few weeks.

## ANNUAL PICNIC OF ARENZVILLE CHURCH

**Congregation and Sunday School of St. Peter's Lutheran Church Hold Annual Picnic—W. C. T. U. Members Met—Other News Notes.**

Arenzville, Aug. 19.—The St. Peter's Lutheran church and Sunday school held the annual picnic on Wednesday in the church grove northwest of town. On last year the picnic was abandoned as so many of the boys of the community were absent "over there." Now almost all of them have returned and special effort was put forth by those in charge of the arrangements to have the occasion a grand reunion in honor of the soldiers. There was a large attendance of the members of the congregation and their friends, and the occasion was a most happy one for all. Refreshments added much to the success of the event and every one voted this year's picnic one of the best ever held in the Arenzville community.

W. C. T. U. members met recently at the home of Mrs. Lena Beard, being conveyed to this pleasant country home by automobile. Miss Amelia Cox was the leader. After the meeting a picnic lunch was served, and the affair was a most pleasant one despite the rather threatening weather in the early afternoon. All left at a late hour with pleasant recollections of the day.

Edward Standley and Ashford Ator of Joy Prairie were callers here one day last week.

Carians Bros & Co. concert, band, orchestra and megaphone quartet will be in Arenzville Friday, Aug. 29, and perform in a large tent.

R. J. Ommen returned from St. Louis, where he went recently on business.

Dr. and Mrs. J. M. Swope autoed to Chapin one day the past week.

Robert Hamm, Jr., is visiting friends and relatives at Joy Prairie.

Mr. and Mrs. John Berger, Robert Hierman of Jacksonville autoed here Sunday for a visit with friends.

Mrs. Henry Zahn was a guest of relatives at Petersburg a few days this week.

Mesdames Edward Wood and Robert Hamm spent several days at the home of their sister, Mrs. Fred Kloker, the past week.

Herman Engelbrecht and Mrs. Lydia Engelbrecht attended the funeral of W. H. Thomas at Beardstown recently.

Henry Lovecamp of Chandlerville is ill at the home of his father. He has been consulting a number of physicians in the south and north.

Mrs. R. V. Haney and children have returned from a visit at Table Grove.

William Arenz is visiting at Springfield this week.

Mrs. C. W. Yeck of Pawnee is the guest of relatives here.

John Weeks left one day this week for a trip to Missouri.

Has The Eden

specialist called at your home this week? If not, he will be there. We have a crew of factory-trained men here. Should he call during your absence, please phone for a free demonstration of an Eden in your home, or let one of these men call and tell this story which means so much to you.

**The married men of America don't have to do the washing, but if they did, they would be as tired of laundry slavery as American married women are.**

Men in business buy any machinery that can possibly speed up their work. They are strong for labor-saving devices in their offices. They buy typewriters, addressing machines, dictating machines, and wherever they can save their own or their employe's time or labor they do not hesitate to replace man power with machinery.

The same thing is true intheir homes; and wherever American men have been convinced that the purchase of an Eden Clothes Washer meant more leisure for their wives, more and longer-lived clean clothes and less laundry expense, they have never hesitated to order an Eden.

There are many married men, however, who have never given the question of laundering any thought. Uncomplaining wives have scrubbed and rubbed and ironed for them and their household as a matter of habit—or servants have been hired to do the washing—with the result that many men haven't realized the unnecessary expense and mean, hard work involved in washing by hand.

Such men are urged to arrange for a free demonstration of the Eden in their own homes. The machine itself will convince any housekeeper that she needs one—while we can convince any man that he can save money by owning an Eden, whether the housewife or laundress does the washing.

The Eden

in either event pays for itself many times over.

Married men are urged to call at our office and see machine in operation on floor of Jacksonville Railway & Light Company. They are invited to telephone or write us. They are urged to substitute a modern, scientific and time-tested method of laundering for the old-style, back-breaking and costly hand washing.

The Perfect Oil for Cooking and Salads

Why Mazola Saves Money in Cooking and Makes Food Better

ONE of the most important things Mazola does for cooking is to take the place of butter.

In frying or shortening it gives the finest results.

And, pound for pound, it costs considerably less.

Foods cooked with Mazola, or in which Mazola is used, are wholesome, healthful, very easy to digest.

Use ¼ to ⅓ less Mazola for shortening than butter or lard.

In frying, use Mazola over and over again to the last drop—it never absorbs odors or flavors.

No smoking—no soggy cooking.

### MURPHY DRIVES THREE WINNERS

POUGHKEEPSIE, N. Y., Aug. 20.—Thomas W. Murphy drove home three winners in the four events he had entered at the opening today of the grand circuit meeting in Poughkeepsie. The Poughkeepsie reinsman piloted Royal Mac and Direct C. Burnett to easy straight heat victories in the Knickerbocker 2:06 trot and the Hudson Valley 2:06 pace, and took the 2:20 trot with Doctor Nick. Considering the track, still heavy from rains, time performances were creditable.

The third event on the program, the 2:12 trot, went to Peter Worthy after a hard battle with Labe Riddel which broke thru on the winner and took the second heat by inches, in a driving finish. Prince S., captured the 2:15 trot for amateur drivers.

### STATE FAIR TRAIN

No. 9 leaving Bluffs for Keokuk at 1:40 p. m. will be held at Bluffs to connect with No. 15 on Aug. 18, 19, 20, 21, 22, 23.

No. 15 due to Springfield at 3:55 p. m. will be held at Springfield until 5:30 p. m. Aug. 19, 20, 21, 22 and arrive at Jacksonville about 7 p. m.

### SINCLAIR

John Lockhart, residing northwest of Sinclair, died at the home of his son, George Lockhart, two miles north of Orleans Saturday, August 1... The funeral was held at Ashland on Monday, August 18.

L. D. Harrington, wife and daughter are visiting with their daughter, Mrs. J. H. Gaither, at Thatcher, Ind., for a few days.

Mr. and Mrs. Roy Higgison, formerly of this place but now living in Philadelphia, in Cass county, are the parents of a son, born July 18.

R. M. Foster had the misfortune to lose a valuable horse recently. The horse was taken sick Saturday afternon near Sinclair and died a few minutes later.

The annual chicken fry will be held at Berea church east of here on August 28. Everybody is invited.

Threshing is almost finished in this community and the plowing is being rushed prepatory to wheat sowing.

All the soldier boys are now back from the great war without any serious injuries. One or two were slightly gassed but that is all.

### PROPOSALS FOR PAINTING.

Sealed bids will be received at the office of J. K. C. Pierson, architect 606 Ayers Bank building, till 12 o'clock noon, Monday, Aug. 25, 1919 for painting at the Public Library. Specifications may be obtained at the office of the architect. The Public Library Board reserves the right to accept or reject any or all bids.

### TAKING VACATIONS.

Pearl Iglehart of the fire department is enjoying his vacation this week. John McGinnis of the police department is also taking his vacation, and James Hurst of the night force is working on the day force.

**Pittsburgh, 5; Brooklyn, 1.**

Brooklyn, Aug. 20.—Pittsburgh won from Brooklyn today 5 to 1, by bunching hits off Grimes in the first inning.

Score:

| | R. | H. | E. |
|---|---|---|---|
| Pittsburgh | 401 000 000-5 | 8 | 1 |
| Brooklyn | 100 000 000-1 | 10 | 2 |

F. Miller and Schmidt; Grimes and O. Miller.

**New York, 5-4; St. Louis, 2-1.**

New York, Aug. 20.—New York defeated St. Louis in both games of today's double header 5 to 2 and 4 to 1. Toney's pitching and St. Louis' misplays gave the Giants the first game, while May's wildness in the second proved the undoing of St. Louis.

Scores:

| | R. | H. | E. |

| New York | 100 200 01*-4 | 6 | 2 |

May, Tuero and Clemons; Benton and Snyder.

**Chicago, 2-6; Philadelphia, 10-5.**

Philadelphia, Aug. 20.—Leaving the club house gate open probably prevented Philadelphia from winning both games from Chicago today. The locals won the first 10 to 2 and Chicago the second 6 to 5 in 11 innings.

In the ninth inning of the second game with Philadelphia two runs ahead, Merkle doubled and Deal's drive to left center rolled thru the gate. Williams' return held Deal at second base but Umpire Klem ruled it a home run which tied the score.

Chicago won in the eleventh on three singles and Deal's double.

## FINANCIAL AND COMMERCIAL

**Andrew Carnegie's self-written epitaph:** "Here lies a man who knew how to enlist in his service better men than himself," recalled to Wall Street today leaders in the financial district with the rare gift of picking able lieutenants. J. P. Morgan had the gift to a rare degree. Mr. Converse was another, "one of Converse's boys," being a common expression in Wall Street. E. H. Harriman was another. Harriman had no technical training as a lawyer or engineer but he knew how to pick the best men in those professions and his company made the best use of them. Mr. Morgan, like Mr. Carnegie, made his partners rich. But the steel king is given credit for having been far ahead of his day in profit sharing as far as his partners went. Carnegie made the discovery that it was good business to let his partners share in profits.

**A new plant of the Welch Grape** Juice Company will be built at Lawrence, Mich., with the proceeds of the sale of $1,000,000 of new preferred stock.

**W. L. Douglas Shoe Company** stockholders have voted to increase the preferred stock by an issue of $3,000,000 of 7 per cent stock, making a total of $5,500,-000 preferred. The common remains at $1,000,000. The stockholders may subscribe at par for six new shares for every seven now held.

**The Mexican department of** commerce says $2,000,000,000 is invested in the petroleum industry in Mexico and that $1,500,000 is needed to properly develop oil resources there.

**The market valuation of the** stocks of the 35 Standard Oil Interests companies is estimated at nearly $2,500,000,000.

**Withdrawal of $150,000 in gold** from the Subtreasury for shipment to South America brought the total of gold shipments from this country since the lifting of the embargo to $128,472,00. Nearly half of this sum, or $57,-150,000, was for South America.

**The Hersey Chocolate Company** is preparing to spend $6,000,000 on expansions to increase its production of chocolate. The main factory at Hersey, Pa., will be enlarged and a new factory will be built in New York.

**Fuel oil is selling in Mexico for** one cent a barrel, because of a large excess production and minimum demand. Oil trade conditions in Mexico have been seriously disturbed in the last year, as a result of the completion of about a dozen enormous producing wells by serveral companies mostly small concerns, who, following the release of tank steamers from war service, begin marketing this oil regardless of prices.. The result is that the big companies no longer are in control of the market and in consequence their business has fallen off sharply.

The extent of the demoratization is shown by the fact that the exports duty from Mexico amounts to ten cents a barrel, compared with a present market value of one cent a barrel for the oil.

The oil, for which there is practically no market at the time being, is the heavy crude oil of the Panuco fields, suitable almost solely for fuel. The crude production from the South fields in Mexico, which is adaptable for general refining purposes, is not so affected.

## CORN IRREGULAR; PRICE CLOSES FIRM

**Light Offerings, Further Decline in Foreign Exchange and Demands of Shorts Contribute to Series of Declines and Rallies.**

Chicago, Aug. 20.—The corn market today was irregular and exhibited a succession of declines and rallies closing firm after a speedy working away from late low points. Light offerings, a further decline in foreign exchange and the demand of shorts were contributing factors. The close was firm 1 1-8c to 1 1-2c net lower on distant months and 3-4c to 1 1-2c net higher for September the only delivery finishing at an advance. Closing prices for corn were Sept. $1.84 1-4 to $1.84 1-3 and December $1.43 1-2 to $1.43 3-4. Oats closed 1-2c lower to 1-4c higher and provisions finished unchanged to 20c lower.

Oats followed the course of corn with a firm understone most of the time.

Provisions moved generally with grain. The undertone was weak toward the end of the session but fluctuations were in narrow limits.

## STOCKS WEAKEN BEFORE THE CLOSE

**Fresh Misgivings Regarding Current Financial and Industrial Problems Dispel Confident Feeling.**

New York, Aug. 20.—The more confident feeling created yesterday by the speedy settlement of the traction strike was dispelled today by fresh misgivings regarding current financial and industrial problems. Prices were firm to strong at the outset, but eased all around before midday and weakened before the close on the absolute demoralization which prevailed in the foreign exchange market and greater apprehension as to the outcome of the steel workers' strike vote.

Call money offered ground for unsettlement, the easy rates of the opening hardening appreciably in the final hour on withdrawal of funds by interior banks to meet demands in their respective localities.

It was rumored that the French government had entered into active negotiations with American bankers for a large loan to stabilize credits, but no confirmation was forthcoming from high financial interests

Authorities scouted the idea of a protracted strike in the steel trade but their views were not shared by traders, as indicated by United States Steel's decline to 98 3-8, its lowest price in four months and a drop of 2 3-4 points

Reversals in other standard stocks ranged from 3 to 5 points specialties sustaining losses of 5 to almot 10, the market closing almost at lowest levels Sales amounted to 950,000 shares

Liberty bonds were fairly steady but the general list, including foreign issues was heavy; total sales (par value) aggregated $10,675,000.

## CENTRAL ILLINOIS IS WITHOUT SUGAR

**Jacksonville Grocers Selling in Two or Five Pound Lots—Many Retailers Out Entirely—Other Cities Short.**

Many Jacksonville retail grocers have at the present time a limit of 2 pounds per person on sugar Many Jacksonville retail grocers have not a pound of sugar for sale. Wholesalers in the city have little or none. One man connected with the wholesale trade in Jacksonville summed up the sugar situation as follows:

"I haven't a pound of sugar in the house. I don't know when I am going to get any. I have a number of cars ordered from several different places. One car of sugar was shipped yesterday to us from San Francisco, Cal. In times of normal freight shipments this car should reach Jacksonville in from two to three weeks. A car of sugar will not last much more than a day with us. It contains from four to five hundred bags, and when we distribute that, each grocer gets only a small amount.

"Chicago jobbers may have some sugar for their Chicago customers, but I was in touch with Chicago and they have no sugar for resale to jobbers here. The situation was brought about by the seamen's strike which recently ended. No raw sugar was coming into this country. Several refineries were forced to close down.

"Now the strike is ended and the ships are on their way to the sugar countries. They have not yet returned with their cargoes of raw sugar. When that sugar reaches this country the supply will be greater.

"Beet sugar is not yet on the market. They are just starting to grind and the full beet sugar crop will not be ready for thirty days yet. Then it will take thirty more days for the beet sugar to be distributed over the country. It looks like it would be between thirty and sixty days before the raw sugar can be refined and placed on the market after the boats begin to arrive, which seems clear that it will be sixty days yet before the sugar supply of this country is back to normal.

"I received a survey of the sugar refineries from New York this morning. This survey gives the following facts relative to the situation with the big refineries:

Federal Sugar Refining Co., shut down.

Arbuckle Bros. are filling 10 per cent of their orders and are two months behind in taking care of these orders.

Warner Sugar Refining Co. are filling 33 1-3 per cent of their orders, two months behind on orders.

The American Sugar Refining Co., are filling 33 1-3 per cent of their orders, two months behind on orders.

B. H. Howell & Co. are six weeks behind on orders and will shut down this week unless they receive some raw sugar. Have been filling 5% per cent of orders.

"The above briefly shows in what circumstances the largest sugar refineries of the country are at the present time. Twenty thousand tons of raw sugar are due in New York this week. Next week it is unknown what shipments will be received or are expected. Thus it will be seen that with the greatest refineries the present day troubles are insignificant in comparison to what the future may hold. Wholesalers have no sugar, jobbers have no sugar. The exporters have a little and this is being sold from $11.50 to $12.50 per 100 pounds, according to where it is stored."

A man came into the Journal office several days ago and said that he had found that in Springfield sugar could be bought there in any amount. He also said that it could be bought in Peoria in any amount up to 100 pounds. He had attempted to buy sugar in Decatur and was limited to two pounds.

## KANSAS VISITORS HAVE RETURNED HOME

**Have Been Visiting in Bluffs for Two Weeks—Other Bluffs News Notes.**

Bluffs, August 1.—Mr. and Mrs. Alan Cannon and sons of Colony, Kans., who have been visiting the latter's mother, Mrs. Eliza Beavers, for the past two weeks, returned home Sunday.

Mrs. W. E. Shaner and daughter, Miss Stella of Chicago, are visiting the former's sister, Mrs. Ed Henry. Miss Stella left Monday for a visit with relatives in St. Louis.

Mrs. H. C. Finney and son, Richard, were visitors in Hannibal, Mo., Sunday.

Mr. and Mrs. Floyd House have returned from Springfield. At present they are with A. E. Laurence and family until a suitable dwelling house can be secured. Houses are never vacant long in Bluffs and are usually spoken for months in advance. A five room cottage rents from $12 to $15 per month and even more if nicely located. Property is always salable at a good price at any time of the year.

Dr. James Lucas, the new veterinarian who recently located here from Chicago and who purchased the F. F. Curtis property, is having it repaired, yard graded and put in tip top shape. When completed he will have an ideal home.

F. T. Curtis, druggist, has purchased a drug store at Galva. He still conducts the City Pharmacy here but will probably sell, or remove his stock from this place.

Mr. and Mrs. Robert Jacobs and baby expect to leave soon for their new home in Albuquerque, New Mexico.

Miss Margaret Vannier is visiting Edna Thomas in Keokuk, Ia.

W. A. Warren and family who recently located here from Camp Point have taken up their residence with Mrs. Helen Augustine.

The round house employes who were out on a strike have returned to their work again.

James Bingham is treating his house to a fresh coat of paint. Jack Adkins is doing the work.

Mrs. Orion Woodson has returned from St. Louis where she has been a city visitor for several days.

# Do your Jams and Jellies ever "Candy"?

Many women have been so discouraged by this trouble that they have almost stopped putting up fruit.

Yet, there is an easy, simple way to avoid it. Use ½ Karo (*Red Label*) and ½ sugar in your preserving syrup, instead of sugar alone.

Karo is a fine, clear syrup, with a natural affinity for the juices of the fruit.

It blends the sugar with the fruit juice—brings out all the "fruity" flavor.

You, too, will obtain perfect results this summer if you will use ½ Karo (*Red Label*) and ½ sugar instead of all sugar for preserving.

You will find your jelly clear and firm—your preserves rich with heavy syrup—your jams deliciously mellow and "fruity". Not a sign of "candying".

**For Cooking, Baking and Candy-Making** Karo (*Red Label*) is used in millions of homes. In all cooking and baking recipes use Karo instead of sugar. It is sweet, of delicate flavor, and brings out the natural flavor of the food.

**Use ½ Karo (red label) and ½ sugar**

*Makes perfect jams, jellies and preserves.*
